

**ANGEL GRACE WORLDWIDE BOARDS  
NEW FILM FROM DIRECTOR OF “THE BLAIR WITCH PROJECT”**

*Sales to Commence in Cannes for Worldwide Rights*

**BURBANK, CALIF. (May 12, 2017)**— Angel Grace Worldwide (AGW) has announced it will handle worldwide sales on “Griffin’s Ghost,” from New York-based Nous Entertainment, launching in Cannes.

“Griffin’s Ghost,” an elevated horror/psychological thriller to be directed by Eduardo Sanchez, director of the worldwide phenomenon “The Blair Witch Project,” is about Griffin Kidder and her husband John, who buy a dilapidated house in the suburbs to renovate, only to discover the home already has residents of the apparition variety. After relentless torment, Griffin finally confronts the ghost. Only when their unusual connection deepens does she realize the true threat isn’t inside the house. Casting is underway for a fall start date.

Director Sanchez’s latest film, the Bigfoot found-footage film “Exists,” won the Audience Award in the Midnighters section at SXSW 2014. He is currently attached to direct “Devil’s Night” for Blumhouse.

The screenplay is from the late, great Pulitzer Prize-nominated Broadway playwright/director Jack Zeman. After making a name for himself with an amazing theater career, Zeman wrote “Griffin’s Ghost” as his second screenplay—and it also became his second script to be a finalist in the Writers Guild East competition. Sanchez loves the characters and is looking forward to crafting a creepy, scary movie that at its core has a deep emotional foundation not usually seen in genre films.

Nous Entertainment’s creative partner, Adam Scherr, is producing “Griffin’s Ghost.” Luke Taylor, partner at Buffalo 8 and BondIt Media Capital, is set to Executive Produce. Recent credits include “Rodney King,” a Netflix Original directed by Spike Lee, “Little Men,” distributed by Magnolia Pictures, and Rob Reiner’s upcoming film, “Shock and Awe.”

Terese Linden Kohn, head of sales and distribution at AGW, says “We are thrilled to offer “Griffin’s Ghost” to our buyers with Eduardo Sanchez at the helm, as he always delivers a unique experience for the genre fans.”

A portion of Nous Entertainment's proceeds from “Griffin’s Ghost” will go toward directly supporting the work of emerging filmmakers and screenwriters. Recognizing a gap in resources available for new and talented voices in the film world, Nous Entertainment has established the Zeed Film Fund and will grant 10% of proceeds from the film to help aspiring artists bring their visions to life. These resources will be dedicated to seed funding, mentoring and business development training. "I want aspiring artists to automatically see that art and commerce are one," said Adam Scherr, co-founder, Nous. This initiative is inspired by screenwriter Jack Zeman’s bequest of “Griffin’s Ghost” to Scherr and Nous Entertainment. Nous seeks to extend Mr. Zeman’s legacy of partnership and collaboration for the arts by supporting the work of tomorrow’s filmmakers and writers with the Zeed Film Fund.

Nous Entertainment's inaugural film, "Forbidden Cuba," was the first feature-length, American film shot in Cuba since 1959; it won Best Producer at the 2016 Brooklyn Film Festival.
